The newsletter (for now, at least, entitled SIGEvolutions) of the Special
Interest Group in Evolutionary Computation (SIGEVO) is soon on its way.
The first issue is planned for late March 2006. It will be distributed
in three formats, PDF, html, and plain text. At this point, we wish to
invite contributions in the following categories.

EC Art
    Are you working with Evolutionary Art?
    We are looking for some nice art for the PDF and HTML editions
    of the newsletter.

Short surveys and position papers
    We invite short surveys and position papers in EC and EC related
    areas. Ideally, contributions should be two to four pages long.

Lost Gems
    Did you read an interesting EC paper that, in your opinion, did
    not receive enough attention or should be rediscovered? Then send
    us a page about it.

Dissertation Corner
    We invite short summaries, around a page, of theses in EC-related
    areas that have been recently discussed and are available online.

Meetings Reports
    Did you participate to an interesting EC-related event? Would
    you be willing to tell us about it? Then, send us a short
    summary, around half a page, about the event.

Forthcoming Events
    If you have an EC event you wish to announce, this is the place!

Software Corner
    Did you develop some EC software and you wish to tell us about it?
    Then, send us a short summary or a short tutorial of your software.

News and Announcements
    Is there anything you wish to announce? This is the place.

Letters
    If you want to ask or to say something to SIGEVO members, please
    write us a letter!

Suggestions
    We are always open for these, so please drop an email!

Contributions will be reviewed by members of the newsletter board. We
accept contributions in LaTeX, MS Word, and plain text.

Enquiries about submissions and contributions can be emailed to
        pierluca.lanzi@polimi.it .

Pier Luca Lanzi, EIC, SIGEvolutions
